

Distribusi dan Monetisasi Aplikasi Android

Tim Teaching

Informatika 2025

Distribusi Aplikasi

Bagaimana cara agar orang lain dapat menggunakan aplikasi mobile yang telah dibangun ?

Distribusi Aplikasi

- File .apk
- Market app

File .apk

- Membagikan secara langsung file .apk hasil compile dari source code menggunakan IDE.
- Distribusi dapat langsung secara personal melalui media sosial, website personal, github, email, dll.
- Orang yang menginstall file .apk perlu mengubah setting smartphone agar mengizinkan instalasi apk di luar market app resmi.

Aplikasi android gratis source code free download

my man.. kita jumpa lagi,, setelah kemarin kita ngebahas nih gimana build mengenai apk dengan form regis maka kini uda siap belum nih untuk memulai yang baru lagi.. apa itu ?? tentu aja aplikasi android gratis yang bisa kamu gunakan untuk memberikan informasi mengenai perusahaan mu, bisnis mu,jasa kamu, profile dan lain nya . mengapa gratis ?? ya karena kami tau netizen demen gratissan nih.. xixixi...

baiklah sebelumnya dilatar belakangi dari pelanggan mesin kasir kami yang sebelum nya curhat nih mengenai sulit nya cari cara untuk atau bagaimana sih membuat aplikasi android ini sendiri, maka kita kasih nih masukan untuk dia supaya ngebuat dari pihak ke tiga bisa makai penyedia layanan apps, tapi kembali lagi kata dia mahal banget, sebenarnya ada sih yang gratis cuman karena webview jadi agak sulit untuk upload ke playstore , wait apa bener webview di tolak mentah ?? untuk yang ini sih belum bisa memastikan ya cuma kita pernah sih makai webview build menggunakan java android karena kebutuhan deadline project yang mepet akhirnya kita menggunakan webview dan disini oke oke saja setelah kita upload ke google, emang awal nya datang lah surat cinta dari google playstore ke kita, nampaknya memang google agak sulit dan tidak mengijinkan update app dilakukan secara langsung, dan diwajibkan melalui APK kita begitu kurang lebih isi surat cinta dari playstore, tapi ada beberapa solusi dong, dan kita uda coba solusi yang uda kita lakukan dan maaf tidak bisa kita publish ke sini takutnya banyak yang makai nanti malah di tolak tentunya akan ngefek juga sama beberapa apk webview kita , hwehwehwe... -> cara ini kita uda pernah upload dan berhasil ke playstore dengan menggunakan webview dan sukses hingga saat ini bahkan ada banyak juga apk yang kita gunain.

Supaya gak penasaran gimana bentuk tampilan nya kamu bisa download disini deh contoh display seperti ini.yuk download langsung ke playstore

Market App

- Mengunggah aplikasi ke market app.
- Market app resmi untuk Android adalah [Google Play Store](#), sedangkan apabila menggunakan iOS market app resminya adalah [Apple App Store](#).
- Market app lainnya:
 - [Amazon Appstore](#)
 - [Samsung Galaxy Store](#)
 - [Huawei App Gallery](#)
 - [Xiaomi GetApps](#)
 - [F-Droid](#)
 - [APKPure](#)
 - [APKMirror](#)

Monetisasi Aplikasi

Monetisasi berkaitan dengan bagaimana developer mendapatkan uang dari aplikasi:

1. Jasa pembuatan aplikasi
2. Iklan
3. In-app purchase
4. Sponsor
5. Aplikasi berbayar

1. Jasa Pembuatan Aplikasi

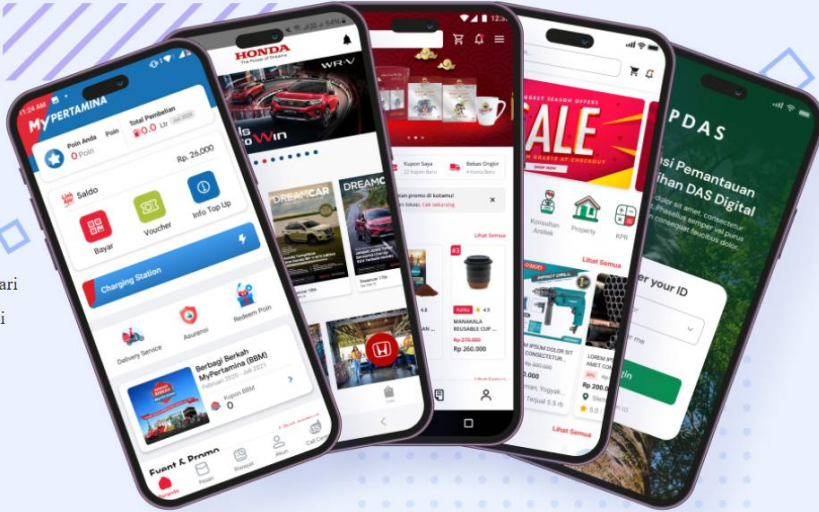

Developer dapat menjual jasa pembuatan aplikasi mobile kepada client. Model lain adalah dengan bekerja pada perusahaan, developer dibayar untuk membuat aplikasi mobile.

Tentang Kami Layanan Kami Portfolio Artikel Hubungi Kami

ANDROID & IOS MOBILE

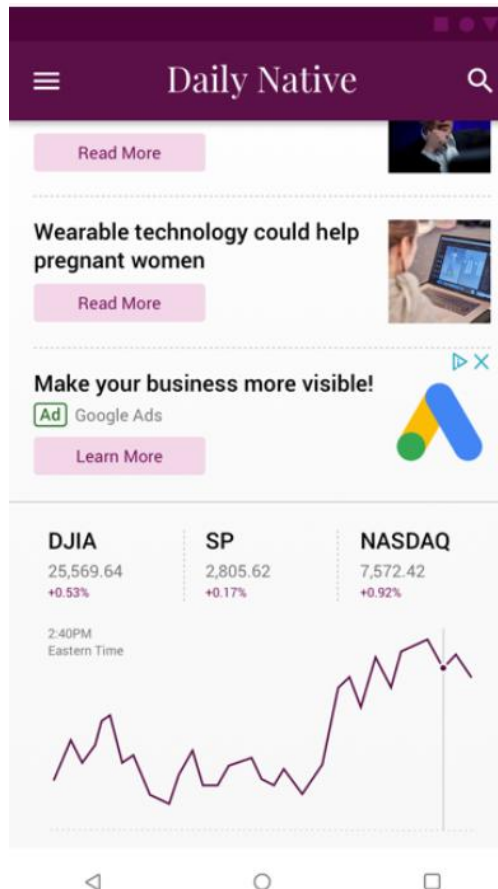

Mitra Terpercaya untuk Pengembangan Aplikasi Mobile

Tingkatkan efisiensi bisnis dan jangkau lebih banyak pelanggan dengan aplikasi mobile dari Mediatechindo. Dengan tim developer berpengalaman, Mediatechindo menawarkan solusi pembuatan aplikasi mobile lengkap, mulai dari konsep, desain, pengembangan, hingga peluncuran di Play Store dan App Store

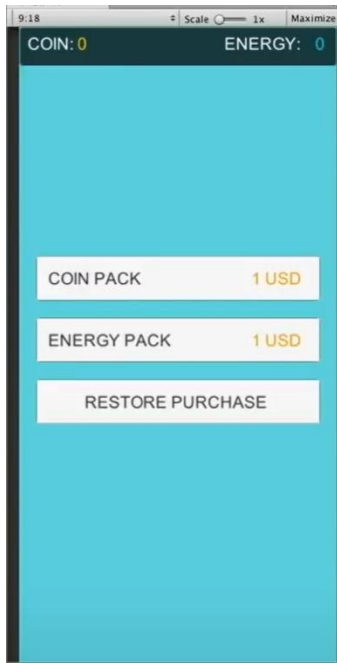

2. Iklan

- Menambahkan iklan ke aplikasi mobile yang dibuat, baik iklan dari google maupun dari pihak lain.

3. In-app Purchase

Model monetisasi ini adalah dengan membuat fitur pembelian item / komponen dalam aplikasi. Misalnya dalam aplikasi game, user dapat membeli item pendukung untuk mendapatkan experience yang lebih bagus dalam memainkan game tersebut.

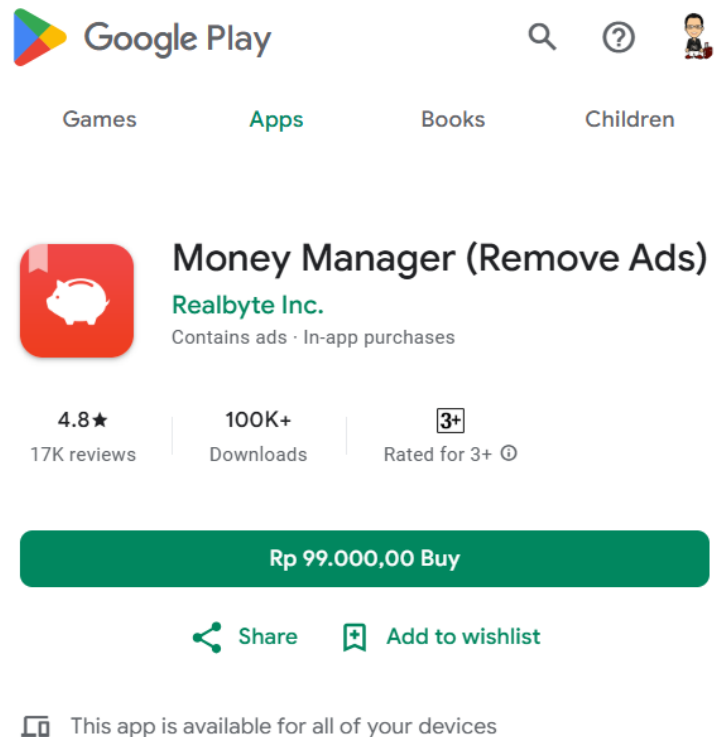

4. Sponsor

Developer dapat mencari sponsor yang bersedia membiayai pembuatan aplikasi yang dikerjakan.

5. Aplikasi Berbayar

Developer dapat menentukan harga aplikasinya, user diharusnya membayar terlebih dahulu sebelum dapat menginstal aplikasi.

Rilis Aplikasi ke Google Play Store

Terdapat 2 tahapan umum yang perlu dipersiapkan untuk mempublikasikan Aplikasi yang sudah kita buat ke Google Play Store, yaitu :

1. Preparation
2. Deployment

Preparation

1. Siapkan Projectnya
2. Icon Launcher (ref: <https://romannurik.github.io/AndroidAssetStudio/icons-launcher.html>)
3. Generate Launcher
4. Sesuaikan Label App
5. Changes android package name sesuai dengan kebutuhan (contoh: com.namapublisher.namaaplikasi)
6. Signing the app
 - On Mac/Linux, use the following command:
`keytool -genkey -v -keystore ~/upload-keystore.jks -keyalg RSA -keysize 2048 -validity 10000 -alias upload -storetype JKS`
 - On Windows, use the following command:
`keytool -genkey -v -keystore %userprofile%\upload-keystore.jks -storetype JKS -keyalg RSA -keysize 2048 -validity 10000 -alias upload`

Preparation

7. Create key.properties at [project]/android/ :
storePassword=<password from previous step>
keyPassword=<password from previous step>
keyAlias=upload
storeFile=upload-keystore.jks
8. Configure signing in gradle: [project]/android/app/build.gradle

```
def keystoreProperties = new Properties()
def keystorePropertiesFile = rootProject.file('key.properties')
if (keystorePropertiesFile.exists()) {
    keystoreProperties.load(new FileInputStream(keystorePropertiesFile))
}
android {
    ...
}
```

Preparation

```
signingConfigs {  
    release {  
        keyAlias keystoreProperties['keyAlias']  
        keyPassword keystoreProperties['keyPassword']  
        storeFile keystoreProperties['storeFile'] ?  
            file(keystoreProperties['storeFile']) : null  
        storePassword keystoreProperties['storePassword']  
    }  
}  
buildTypes {  
    release {  
        signingConfig signingConfigs.release  
    }  
}
```

Preparation

9. Build appbundle

Persyaratan Layanan Konsol Play

Berlaku mulai 29 April 2020

1. Persyaratan yang Berlaku

1.1 Terima kasih telah menggunakan Konsol Play. Konsol Play adalah layanan yang disediakan kepada developer di <https://play.google.com/apps/publish> oleh Google LLC, perseroan terbatas yang didirikan di negara bagian Delaware dengan alamat lokasi bisnis utama di 1600 Amphitheatre Parkway, Mountain View, CA 94043, United States; Google Ireland Limited, perusahaan yang didirikan di Irlandia dengan alamat lokasi bisnis utama di Gordon House, Barrow Street, Dublin 4, Ireland; Google Commerce Limited, perusahaan yang didirikan di Irlandia dengan alamat lokasi bisnis utama di Gordon House, Barrow Street, Dublin 4, Ireland; atau Google Asia Pacific Pte. Limited, perusahaan yang didirikan di Singapura dengan alamat lokasi bisnis utama di 70 Pasir Panjang Road, #03-71, Mapletree Business City, Singapore 117371. Google dapat memperbarui entitas Google dan alamatnya dari waktu ke waktu (secara kolektif, di sini, disebut sebagai "Google" atau "kami"). Sebagai individu, penggunaan Anda atas Konsol Google Play tunduk pada Persyaratan Layanan Konsol Google Play ini ("Persyaratan").

1.2 Untuk menyetujui Persyaratan ini dan menggunakan Konsol Play, Anda harus berusia minimal 18 tahun dan sudah masuk usia legal di negara Anda untuk menjalin kontrak yang mengikat dengan Google.

1.3 Persyaratan ini membentuk kontrak yang mengikat secara hukum antara Anda dan Google sehubungan dengan penggunaan Anda atas Konsol Play.

1.4 Persyaratan ini merupakan persyaratan tambahan untuk Perjanjian Distribusi Developer Google Play yang saat ini dapat Anda baca di https://play.google.com/intl/ALL_id/about/developer-distribution-agreement.html ("DDA"). Anda harus menyetujui DDA untuk menggunakan Konsol Play.

1.5 Konsol Play meliputi versi web, web seluler, dan aplikasi Konsol Play yang disediakan oleh Google kepada Anda. Hal ini termasuk pengelolaan, publikasi, dan alat listingan, serta metrik dan insight berdasarkan data yang berasal dari performa, di Google Play dan sistem operasi Android, aplikasi yang terkait dengan Akun Developer.

Creating a Play Console developer account

 @gmail.com ▾

[? Why are we asking this?](#)

Choosing an account type helps us to verify your contact information, keep your account safe, and improve the services we offer. This won't affect the features and services you can access in Play Console, or your eligibility for Google Play developer programs.

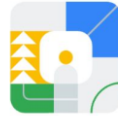

To get started, choose an account type

Who are you creating an account for? [Learn more about which account type to choose](#)

Yourself

Choose if your account is for personal use. For example, if you're a student or hobbyist developer. You'll still be able to earn money on Google Play, and invite others to join your account.

[Get started](#) →

An organization

Choose if you're creating an account for an organization or business. For example, if you're involved in commercial, industrial, professional, or governmental activities. You may be asked to verify your organization.

[Get started](#) →

The Google account you're currently signed in as [bahrie172@gmail.com] will own this developer account. Once the developer account has been created, this can't be changed. To join an existing developer account, ask an admin for an invite.

Why are we asking this?

Your Play Console and Android experience

Providing this information helps us to better understand the Google Play developer community. Your answer won't affect the features and services you can access in Play Console.

Website

Providing this information helps us to verify your identity

Other accounts you've used

Some developers use multiple accounts to try and circumvent Google Play policies. To keep Google Play safe, you should declare any other accounts that you use to access Play Console. Providing this information helps us to verify your identity, and may reduce the number of verifications you need to complete.

 Google Play Console

About you

Your Play Console and Android experience

Tell us about your previous experience with Play Console and Android. This is only visible to you.

For example, tell us about:

- any experience using Play Console
- any apps that you've built, managed, or published
- any Android development experience

You can include links to supporting information.

0 / 5000

Other Google accounts

Have you used any other Google accounts to access Play Console in the past 6 months, other than bahrie172@gmail.com?

This includes Google Accounts that you've used to:

- create Play Console developer accounts
- sign in to Play Console as a team member, either as part of an organization, or for personal use.

This won't be visible to anyone else, and we won't send any communications to any other Google Accounts.

☐ Yes
